The Farm

Aerosmith

Bought myself a farm way out in the country
Took to growin' lettuce, milkin' cows and honey
Bought myself a farm
Way out in the countryBought myself a farm way out in the country
Spent time in the hayloft with the mice and the bunnies
Spent time in the countryYes it's good livin' on the farm
Ah so good livin' on the farm
You know it's so good livin' on the farmHere comes my next door neighbour
Comin' down the road
He always looks so regal ridin' on his toad
Called Lightnin'The toad's name is Lightnin'
He's ten hands at the shoulder
And if you give him sugar you know
He'll whinny like a boulder, yes he willYes it's good livin' on the farm
Ah so good livin' on the farm
You know it's so good livin' on the farmWell I gotta get back to work now and clear away some logs
Ah the sun is shinin' westwards, yeah
I think I'll saddle up my frog and get out of hereYes it's good livin' on the farm
Ah so good livin' on the farm
You know it's so good livin' on the farmOh it's so good livin' on my farm
Yes it's good livin' on the farm
Yes it's good, oh, if you're comin' from a city
To spend time here in the countryIt' good on the farm, it's good on the farm
I'm on the farm, yeah
It's good on the farm
Know it's good livin' on the farmYes i'ts good livin' on the farm
Oh so good livin' on the farm
Yes it's good, it's so good
Livin' on the farm
