Soledad

Amy Sky

I never said the words so long inside
Afraid to give a name to my desire
So I let you slip away like gold dust through my hands
But every night you hold me close in a shadow danceSoledad, Como la luna
Soledad, Esperando te aqui
Soledad, Toda mi vida
No me olvido de tiI light the candle flame pull down the shade
My heart's a lonely shrine to love we never made
We live in parallel across the empty blue
We are like earth and sun and I still circle youSoledad, Como la luna
Soledad, Esperando te aqui
Soledad, Toda mi vida
No me olvido de tiI let you slip away Like gold dust through my hands
But every night you hold me close in a shadow danceAlone, like the moon, alone, I wait for you
Alone, all of my life I can't forget you
