

# Eileen

## The New Wine

There are things we cannot see that hang  
    Within her sight  
There are people we won't remember that  
    Dance with her at night  
    Eileen's calling me  
    To sit awhile and talk to trees  
    Eileen can't you see  
The songs you sing are scaring me  
    Eileen, Eileen  
She's romancing with the moon  
    Full and alone  
    It's really a street light  
    It's something we all know  
    Eileen's calling me  
    To sit awhile and talk to trees  
    Eileen can't you see  
The songs you sing are scaring me  
    Eileen, Eileen, Eileen  
There are things we cannot see that hang  
    Within her sight  
    It's really a street light  
    It's something in her night  
    Eileen she's calling me  
    To sit awhile and talk to trees  
    Eileen can't you see  
The songs you sing are scaring me  
    Eileen's calling me  
    To sit awhile and talk to trees  
    Eileen, oh can't you see  
The songs you sing are scaring me  
    Eileen, Eileen  
I, I know what she knows  
I know what she knows  
I know what she knows  
I know what she knows
