We Can Change the World (Acoustic)

Hawk Nelson

I've seen an orphan's heart filled with the father's love
I've heard the hungry and the thirsty say I've had enough
Yeah, I've seen hopelessness get swallowed up in hope
When all God's people say, okay, here we goWe can change the world, you and me
We can make a difference if we just believe
When the hands and feet start moving together
We can change the world foreverI've seen the broken one get healed of his disease
Witnessed the beauty of forgiveness save my family
So many cities need revival of the soul
And all God's people say come on here we go, come on here we goWe can change the world, you and me
We can make a difference if we just believe
When the hands and feet start moving together
We can change the world foreverWe know what we've gotta do
It's time for us to show the truth
It's up to me, it's up to youWe can change the world
We can change the worldWe can change the world, you and me
We can make a difference if we just believe
When the hands and feet start moving together
We can change the world
We can change the world forever, forever
