Don't Be Afraid

Tyrone Wells

You feel the fear creeping under you
There's a current come to swallow you
Because you know there's nothing you can do
You've lost control and it's not up to you
Down on your knees, you're praying please
A voice is saying

Don't be afraid, it's all right you're not alone in the dark
you'll get through the night
Don't be afraid, I see you I know your name
And I know what you've been through
Don't be afraid
Don't be afraid

Fear's a fire, the walls are caving in
You see the demons and the seraphim's
The battle lines stretch from east to west
The war it wages when all you want is rest
It's all crashing down, still through the sound
A voice is saying

Don't be afraid, it's all right you're not alone in the dark
you'll get through the night
Don't be afraid, I see you I know your name
And I know what you've been through
Don't be afraid
Don't be afraid

Perfect love casts out all the fear
It calls you closer, I hope that you can hear
