Leave Them All Behind

Ride

Wheels turning around
Into alien grounds
Pass through different times
Leave them all behindLeave them all behind
Leave them all behind
Leave them all behind
Leave them all behindJust to see
We've got so far to go
Until we get there
Just let it flowJust let it flow
Just let it flow
Just let it flow
Just let it flowColors shining clear
Fading into night
Our grasp is broken
There's nothing we can doI don't care about the colors
I don't care about the light
I don't care about the truth
I don't care about the truth
