

To D.R.E.A.M. (Skit)

Tory Lanez

Give me just a little bit longer
Give me just a little bit stronger
Give me just a little big longer
Give me just one more try Uh, oh look at how these niggas tryna hold a young nigga
I came from the bottom of the old
Never had a pot to piss in but I had the stove and got richer
Nigga you know what we doin', I've been hustin' just to get myself a Cuban
It was all about the butter, I ain't stutter, I ain't no Ruben
I got a lot of money in these Balmain
Mixing with the czar anytime I'm stepping on the goat dog
Tell me why these niggas always hatin', why I always gotta be the one catch it on the low dog
Nigga down to hit it with the four dog
Got some old dogs, gotta hit it with the road dog
Never Cartier in all my flow dog
I can say it under oath dog
Niggas already know, been the realest in my state
Realest 'til the day I go dog Give me just a little bit longer
Give me just a little bit stronger
Give me just a little big longer
Give me just one more try I dropped the steerin' in the Mulsanne baby
I swear I always wanted one of these baby
Remember when I didn't have a thing baby
I swear man all I had to do was, all I, all I had to do was
Dream baby, dream baby, dream baby
All I had to do was
Dream baby, dream baby, dream baby
All I had to do was Look at the flick of the wrist
I don't see you niggas getting no bigger than this
I got money into the pick of the pick
Women let a fuck a nigga when he the kid with the hit
Rollie with the, black diamond got his ties in it
I got the first class ticket to put the pies in it
I put a couple of bitches and kick it down make the shit
When a nigga ice hit the light then hypnotize your bitch
Niggas need to get they shit straight
Niggas need to get they motherfucking shit straight
Niggas love to say I'm broke
How I was running round fifty thou' plus a feature named Bieber on a mixtape
I got a glass wall for the crib safe

I gotta hit it out make the crib shake
 I gotta take advantage of the chance that I'm granted just to see these hating niggas make the sick face, ouh
 How you love a nigga?
 It's either leave it or pimp it if she be fucking niggas
 I keep a O in the open over these suckas
 I ain't fucking with these niggas that hated but say they love a nigga, no
 Ain't no time for cosigns
 Niggas wasn't giving it, these niggas was living it up
 Dropping the rock, I'm picking it up
 Robbing the game, I'm sticking it up
 Flow stinging like spill it, Barack still in the cut, still in the cut
 For niggas that think I'm giving a fuck
 Not never, I'm probably the hottest ever
 Years nigga, I been on this obscure level that niggas can never mettle with
 We are not the same, this why we can never settle it
 Lambo dark, grey metal tint, its evident
 I don't wanna fuck with niggas I know I'm better than
 So I think you niggas better just Give me just a little bit longer
 Give me just a little bit stronger
 Give me just a little big longer
 Give me just one more try I dropped the steerin' in the Mulsanne baby
 I swear I always wanted one of these baby
 Remember when I didn't have a thing baby
 I swear man all I had to do was, all I, all I had to do was
 Dream baby, dream baby, dream baby
 All I had to do was
 Dream baby, dream baby, dream baby
 All I had to do was I said all I wanna do, is
 Come up in that coupe
 And the Wraith, it got the stars on the roof, ya bitch
 All I wanna do, I said all I wanna do I said all I wanna do, is
 Come up in that coupe
 And the Wraith, it got the stars on the roof, ya bitch
 All I wanna do, I said all I wanna do I said all I wanna do, is
 Come up in that coupe
 And the Wraith, it got the stars on the roof, ya bitch
 All I wanna do, I said all I wanna do Rollin', rollin', rollin', rollin', rollin' round town
 I've been rollin', cops patrolling, strolling round town
 Rollin', rollin', rollin', rollin', rollin' round
 I've been rollin', cops patrolling, we keep rollin' down
