

Nothing Much Happens

Ben Lee

It's sad and spent
Feel the motion again
Stop and pause
Then move some more
Still surprise you when it shatters
But nothing matters
Still surprise you when it shatters
Don't you know that nothing happens?
But a lot goes on, a lot goes on
But nothing happens
A lot goes on, a lot goes on
But nothing happens
Choose a town
Find a girl to follow around
Stay on track
And just sit back
Still surprise you when it shatters
But nothing matters
Still surprise you when it shattered

Don't you know that nothing happens
But a lot goes on, a lot goes on
But nothing happens
A lot goes on, a lot goes on
But nothing happens
A lot goes on, a lot goes on
But nothing happens
A lot goes on, a lot goes on
But nothing happens
But a lot goes on, a lot goes on
But nothing happens
A lot goes on, a lot goes on
But nothing happens
A lot goes on, a lot goes on
But nothing happens
A lot goes on, a lot goes on
But nothing happens
