

Love XYZ

Luke James

Come in to me and I'll give you all that you need
Love X,Y...Z Come into me,
Love
Come, (come into me)
And I'll give you all that you need
Love X,Y, and Z
Something must be wrong with my feelings
(What's wrong with me)
This love just won't let me be
See when I look into your eyes, talk about reverie
Ooh, how I tremble at the sight of your eyes
Just a little bit of your eyes
Know you don't care, you continue to dare, me to be free She said boy come to me
Come in to me,
Come along, come along and I'll give you all that you need
Love XYZ, love
And I'll give you all that you need
(Give me all that I need)
Love XYZ, love
Say you never leave, say you never leave, say you never leave
Ooh baby, love me til I can't tell no more
Love me til I can't take no more
