

# I Can See Forever in Your Eyes

**Reba McEntire**

Touch me and I feel your fire  
Kiss me and the flame rolls higher  
Show me all the love you know  
Hold me never let me go I never thought I'd be  
    Wrapped in the words  
    Of your sweet, sweet love  
    But here you are with me  
This is what dreams are made of [Chorus]  
    I can see forever in your eyes  
    I can see a love that never dies  
    When you lay me down I realize  
I can see forever in your eyes Take me in your arms tonight  
    Love me with all your might  
    Give me all my heart can hold  
Hold me never let me go Love was mystery  
Until you touched me with sweet, sweet love  
    Now it's so clear to me  
This is what love is made of [Chorus: x2]
