Woah, oh, oh oh
Woah, oh, ohhhh
Woah, oh oh oh-oh-oh-oh-ohCole: Heard you'd been wishing, got my attention
Now it's my mission to show you
Our hearts are racing
Anticipating, and now it's a moment of truthDalton: I admit it, I'm lost in this feeling, it's got me reeling
Nothing can stop me, getting closer and closer
Closing the distance, no more resistance
I hope you're ready 'cause this one's for youAll: You know I've waited my whole life,
Just for this one chance
And now I'm standing right here with you
Under the spotlight, we're gonna take flight
Straight to the top, you know we can't lose
Ohhh ohhh ohhh, we out of here
Ohhh ohhh ohhh, no need to fearWill: It's just the beginning, got my head spinning
Loving this energy with you
One in a million, you know I'm willing
To do whatever I have toDalton: I admit it, I'm lost in this feeling, it's got me reeling
Nothing can stop me, getting closer and closer
Closing the distance, no more resistance
I hope you're ready 'cause this one's for youAll: You know I've waited my whole life
Just for this one chance
And now I'm standing right here with you
Under the spotlight, we're gonna take flight
Straight to the top, you know we can't loseGabe: I'm here in front of you
Step to the front, get a better view
I see you caught up in my storm
This right here is why I was born
Now I'm in the spotlight
Gets a little crazy, but it's alright
And we can't slow down
Never gonna stop, it's our time now
We'll take you higher (higher)
We'll bring the fire (fire)
So we'll take you higher (higher)
We'll bring the fire (fire)
Doing what we want, wild and free
Make it last forever, hit repeat
Take you so high, you'll feel that flight

IM5 into the nightAll: Ohhh ohhh ohhh, yeah
You know I've waited my whole life,
Just for this one chance
And now I'm standing right here with you (standing right here with you)

Straight to the top, you know we can't lose
You know I've waited my whole life,
Just for this one chance
And now I'm standing right here with you (right here with you)
