Take a Look

Skankin' Pickle

Take another bow and wipe the sweat off of your brow
miling to the crowd they are in love with you
Believe in what you will all the minds you want to fill
smilling to yourself, they are in love with you
Take a look, you might not like what you see
What do you think you know something great
it goes to show you can't resist the fatal blow
or change what's wrong with you
I tried to change myself to accomodate your doubts
ignoring all along you were in love with you
Take a look, you might not like what you see
