

You Have No Idea

Harry Connick, Jr.

All through the day
I'm seein' your face on replay
Like a movie in my mind
'Till barely even I see my real life
All through the night time
I lie and relive the last time
Thinkin' 'bout the night you stayed here
You get me high and then you disappear
And you're making me laugh
When you say you wonder
How I feel about you
You have no idea
How many times I think about you
How many nights of been waiting to love you
How much of come to need you
Come to meet you have no idea
How many ways I dream about you
How many days of been waiting to touch you
Now that I've come to meet you
I am so in love You have no idea Why can't I hold you
Why can't I be the one who
Who you wake and do you lie with
Who you laugh and dry your eyes with
And I'm shaking my head When you say you don't know
If I really want you
You have no idea
How many times I think about you
How many nights of been waiting to love you
How much of come to need you
Come to meet you have no idea
You have no idea
How many times I think about you How many nights of been waiting to love you
How much of come to need you
Come to meet you have no idea And now you want to know how I'm sure that you were just what I'm looking
for
But we should go out together more in line because you still make me laugh aloud
When you say you wonder how I feel about you You have no idea
How many times I think about you
How many nights of been waiting to love you

How much of come to need you
Come to meet you have no idea
You have no idea
How many ways I dream about you
How many days of been waiting to touch you
Now that I've come to meet you
I am so in love
You have no idea
