Deeper

Samantha Fox

I take a trip to the ocean drive
Straight up and right into the blue
Whatever it takes to get out alive
My love is coming up for youNow I'm walking right up at the waterfront
And I'm still looking for a cure
Don't you know it gets hard to relax
When this problem gets pureWon't you feel my love again
Can't you see my heart's in painIt goes deeper and deeper
And deeper and deeper
Deeper and deeper
And deeper againIt goes deeper and deeper
And deeper and deeper
Till my love wins
Back your love againI'm walking the edge of a borderline
Am I walking on real thin ice
Am I getting too close to heaven now
Dreaming gets realBut otherwise
It never rains in wonderland
It never rains at all
So won't you give me the answer now
I'm breaking these walls
