Young Love

Billy Gilman

Even if the pipes are knockin' and the walls are thin
We keep on rockin' like a cradle in the wind
We ain't got much money but we got enough
We got the power of young loveWho cares if the roof is leakin' and the paint is old
The stove is broken but we'll never be cold
Rubbin' two hearts together to warm us up
That's the power ofYoung love, it's like a runaway train
Young blood running through our veins
One kiss and I feel the pain
And I love the power of young loveWe grew up together in our hometown
Got used to seein' each other around
And then one night it happened and it didn't take much
The band played just for usAnd young love, it's like a runaway train
Young blood running through our veins
One kiss and I feel the pain
And I love the power of young loveYou know the old folks complain about the kids today
But they were us just yesterday
All we need is the stars above
'Cause we got the power of young loveYoung love, it's like a runaway train
Young blood running through our veins
One kiss and I feel the pain
And I love the power ofYoung love, it's like a burnin' flame
Young blood can't be contained
Washes over me like the falling rain
I love the power of young loveYeah, young love
Ooh, it's like the falling rain
Young love, it's like a runaway train, oh baby
We got the power of young loveYoung love
Young love
