

No Way Home

Authority Zero

There's no way home!
Yeah, yeah!

They're taking on this mission, but don't recall a single thing
While struggles tested patience far too cynical these days
Each time I give an inch, you run away with the mile
I'll keep running in place, keep cracking your smile

Finished with this state in which I've lived for oh so long
All gone are all the days that I stood weak, but now I'm strong
I'm taking on this mission, but killing all that time
We're standing by so free and letting go by holding on

No turning back, I'm gonna live here forever
There's no way home, no way home
Burn my eyes out, we're facing the weather
There's no way home, no way home
We're alive, soul survive
Trip on the footprints that we've left behind
Realizing now, there's no way home

Antagonizing fingers tap the back of shoulders stiff
Just waiting for that moment just to push you off that cliff
The gravity through bumpers and the gravity through cracks

Is making you realize that there's just no turning back so

Finished with this state in which I've lived for oh so long
All gone are all the days that I stood weak, but now I'm strong
I'm taking on this mission, but killing all that time
We're standing by so free and letting go by holding on
Now I'm holding on

No turning back, I'm gonna live here forever
There's no way home, no way home
Burn my eyes out, we're facing the weather
There's no way home, no way home
We're alive, soul survive
Trip on the footprints that we've left behind

Realizing now, there's no way home

Now we're blinded!

No turning back, I'm gonna live here forever

There's no way home, no way home

Burn my eyes out, we're facing the weather

There's no way home, no way home

We're alive, soul survive

Trip on the footprints that we've left behind

Realizing now, there's no way home
