

Searching for Someone Like You

[Kitty Wells](#)

Searching, I've spent a lifetime, darling
Searching, looking for someone like you
Dreaming, in all my dreams I dream
That someday I'd find someone like you
Other love have come my way but they were not for me
Tell me that you're here to stay, don't ever set me free
'Cause I've been searching, I've spent a lifetime, darling
Searching, looking for someone just like you
Other love have come my way but they were not for me
Tell me that you're here to stay, don't ever set me free
'Cause I've been searching, I've spent a lifetime, darling
Searching, looking for someone just like you
