

# 99 Percent

[Dani Shay](#)

some people say talk is cheap  
oh but have say that i disagree  
cuz sometimes my words mean more than anything  
cuz i mean wat i say and i say what i mean  
but 99 percent of the population cant say that much  
no 99 percent of the population cant say that muchsome people lie more than they tell the truth  
they are a house with no location foundation or root  
and at least they think they've got walls but even those topple over in the wind  
its like a paradox if you lose maybe you were tryin too hard to win  
but 99 percent of the population is doing that  
but 99 percent of the population is doing thateliminate the veils in your eyes  
your wasted band aids cover lies  
make up and face hair may hide the surface  
but when its all gone will you know your purposesome ppl try to blend in with the group  
i bet u some ppl practice actin just like you  
and if you've ever heard of the girl who died from crying too much wolf  
i'm sure that i don't have to tell you she would take it all back if she couldbut 99 percent of the population will  
be saying that  
oh 99 percent of the population will be saying that-----cuz 99 percent of the population will be saying that99  
percent of the population will be saying that
