

# Yellow Moon

[Amason](#)

Here far away  
One could feel the earth vibrate  
Moon changing shape and shade  
As we all do under its gaze  
Yellow moon on the rise  
Yellow moon on the rise Round we go, where we stop no one knows  
So tonight the moon I go  
Yellow moon on the rise An echo that rings a bullet unchained  
One life, one grave joins the parade At night the sky grows dark with fallen stars  
Who comes so far a headstone and grave  
The colors turns grey, the black and white fades Yellow Moon on the rise  
Yellow Moon on the rise Yellow Moon on the rise  
Yellow Moon on the rise
