Another World Apart

Stormwitch

Starlight, high above the valley
Covered congress at the edge of town
Tonight, torches in the alley
Whispered secrets, signs all aroundNo time, get your things together
Can't come back leave nothing behind
No time, you know it's now or never
I couldn't bear to lose you one of a kindOoh, help me, take my hand
I wanna stay with you
Ooh, help meWhen we are away from each other
Time will never mend my heart
Each and every day we are growing
Just another world apart
