

One Day (feat. Lazy Bone)

TQ

Written by t. quaites & w. griffin The game what you make of

It is what you can take from it

Understand

Whatever your hustling is

Get it on my nigger

Even when it's wrong my nigger

You heard I heard a story

About 23 years old

And I heard it from somebody

That I used to know

Spendin' days lonely

With no place to go

But to the corner

For a little more love

Im talkin' bout a youngster

That didn't understand

All the shit to becoming a man

Just wondered who right

Control his own life

Yes it's true u gotta

Crawl before u walk

But you weren't supposed to crawl again

So u see it ain't right

If I don't get mine (chorus)

One day

If I can't get no scril

At home gotta get going

We don't bit no

Gotta stay long

Gotta stay strong

Be my own dough

Bring it back home

Trow my chance away

Cos we all gonna bald one day (2x) Sittin' with my homies

On a 120 street

Drinkin' on 40

When I should have been home

And everybody told me

That the game don't last long

Leave it alone
Before your long gone
But they was talkin' to a youngster
With a plan to role
And a bit before your 20 years old
Guess y'all wonder
At my videos
And remember that I told you so
Ain't gonna tell you shit done came from
Cos I got to live my life 4 me
Even if I didn't do it like u said
I still got paid(chorus)(rap by lazy bone)(chorus)
