

# Fog

## ANCERY

There's a little child runnin' 'round this house  
And he never leaves, he will never leave  
And the fog comes up from the sewers  
And glows in the dark  
Baby alligators in the sewers  
Grow up fast, grow up fast

Anything you want it can be done now  
How did you go bad?  
Did you go bad? Did you go bad?  
Some things will never wash away  
Did you go bad? Did you go bad?
