

Just Having Some Fun

Bratz

Oh, yeah
You ready
Here we go Not another little sunshine
To style and a perfect day
Everybody's feelin' alright
Let's hit the road, get on our way Never better altogether, just how we like
Drivin' out to see the world
Everybody laughin' havin' a good time
I'm talkin' about me and my girl Just having some fun, everyone
If you don't have enough, let it go
Just having some fun, that's how it's done
Start it up, let it rock, let it roll
We're just having some fun
We're just having fun So many new people to meet now
So many places to go
Come on, if that's enough to turn the key now
Rev it up and get on the road Never better altogether, just how we like
On the [Incomprehensible] doin' our thing
All my world's ready for the turn of the life
Come on, lemme hear you sing Just having some fun, everyone
If you don't have enough, let it go
Just having some fun, that's how it's done
Start it up, let it rock, let it roll Just having some fun, it's good to be on
Time to drive 'cause we like feeling free
Just having some fun in the sun
There's a whole new world here to see
We're just having some fun Come on everybody, have a good time
As far as we can see nothing but blue sky Have fun, come on, have fun
And sing the [Incomprehensible]
Have fun, come on, have fun
Don't you know we're Just having some fun everyone
If you don't have enough, let it go
Just having some fun, that's how it's done
Start it up, let it rock, let it roll Just having some fun, it's good to be on
Time to drive 'cause we like feeling free
Just having some fun in the sun
There's a whole new world here to see
We're just having some fun
