

# Take the Keys

Leah Turner

Baby this time better you and me  
We rode all night into the wet concrete  
We get caught up in the same routines  
Need an escape from reality  
There's a getaway car in the driveway, parked  
Let's hit the road and let the engine spark

We'll be singing out loud to the Rolling Stones  
Making up lines that we don't know  
I'll ride shotgun, baby take the lead  
So hold my hand and let the Goodyears roll  
In the green light of the stereo  
Pretending it's a Mustang, you can be my Steve McQueen  
So go on and take the keys, hey hey  
And see where the road leads, hey hey

County lines in your rearview fade  
Changing lanes through Memory's Main  
Pedal down and the tank is full  
Getting high on life and no one troubles  
Bringing us down

We'll be singing out loud to the Rolling Stones  
Making up lines that we don't know  
I'll ride shotgun, baby take the lead  
So hold my hand and let the Goodyears roll  
In the green light of the stereo  
Pretending it's a Mustang, you can be my Steve McQueen  
So go on and take the keys, hey hey  
And see where the road leads

Top down when the sun comes up, yeah  
Free falling back in love  
Over and over again

We'll be singing out loud to the Rolling Stones  
Making up lines that we don't know

We'll be singing out loud to the Rolling Stones  
Making up lines that we don't know

I'll ride shotgun, baby take the lead  
So hold my hand and let the Goodyears roll  
In the green light of the stereo  
Pretending it's a Mustang, you can be my Steve McQueen  
So go on and take the keys  
And see where the road leads

Come on, come on, take the keys  
Come on, come on, baby  
Come on, come on, take the keys  
Come on, come on, baby
