Notice Me

Anya Marina

VERSE:
I try to find the words when you walk by (walk by)
Words just can't explain the way I feel (I feel) inside
My friends keep sayin you're untouchable
And I can't help feeling invisible
CHORUS:
I'd do anything to catch your eye
So you could see me in a different light
Tell me what's it gonna take cause I wish you would notice me
If you could only give me just one chance
I could be the one and here I am
What's it gonna take to understand
Wish you would notice me
Notice, notice, notice me
Notice, notice, notice me
VERSE:
You've got a light that never seems to fade
I'm drawn to you and I can't look away
We come from different places, girl I know, mmmm
But two worlds collided could be beautiful

CHORUS:
I'd do anything to catch your eye
So you could see me in a different light
Tell me what's it gonna take cause I wish you would notice me
If you could only give me just one chance
I could be the one and here I am
What's it gonna take to understand
-cut off here-
BRIDGE:
I wonder if you know how amazing you are
You leave me breathless
You didn't even try but you've stolen my and I don't want it back
I don't want it back
CHORUS:
I'd do anything to catch your eye
So you could see me in a different light
Tell me what's it gonna take cause I wish you would notice me
If you could only give me just one chance
