# When Love Didn't Hurt

## SWV

Verse
It felt like December in the bedroom last night
I still can't remember what led to that fight
But we both said some things, that we didn't mean
Once again
Your pride made it hard to say you're sorry first
And the look in my eyes saying might make it worst
But we still said some things, that we didn't mean
Once again, againChorus
Oh I dont wanna fight, don't need to be right
At the end of the day i
Just wanna love, and be loved in return
Oh, I wanna start over
I just wanna fall, knowing you'll catch me first
Oh, can we go back to when love didn't hurtVerse
Me as much as that look in your eyes
it felt like two enemies on the front line
But the terrible things we still didn't mean
Once again, Whoa
Im tired of the anger, said I'm tired of the tears
My hearts to invested in too many years
Til those stupid things that we never mean hurt again
Ooh Baby IChorus
Oh i dont wanna fight, don't need to be right
at the end of the day i
Just wanna love, and be loved in return
Oh, I wanna start over
I just wanna fall, knowing you'll catch me first
Oh, I wanna start over, back to when loveWas kissing and hugging
Making sweet love all night long
Rubies and diamonds, sex in the shower's all I want
Luther and candles
Stevie and Merlot
Ooh Ooh OohChorus
