

Not One, But Two

Now, Now Every Children

You run, you run to your room
And told me what to do
With what you've given
Everyone is scared and i know your scared
But you cant keep holding out like this today. And who are these kids sleeping in my bed,
and tell all the people under the stairs,
Tell them all what you want
Tell them all what you want
Tell them all what you want
Tell them all what you want You run, you run to your room
And told me what to do
with what you've given,
Everyone is scared and i know your scared,
but you cant keep holding out like this today. And you who are these kids sleeping in my bed,
And tell all the people under the stairs
Tell them all what you've done
Tell them all what you've done
Tell them all what you've done
Now
