

# Sly

## Mark Murphy

Sly one, the high one  
Come around and do it son

Serve it, deserve it  
Dont just hide instead sly

Shadow, and meadow  
Instead of  
Sneaking around then you fade on and fly

Hit it, or miss it  
Either one the only way

Shake it, don't wreck it  
Do it right stay there and fight

Shadow, and meadow  
Instead of  
Sneaking around then you fade on and fly

Sitting in the backdoor announced  
Smelling like a bad chick within bounds  
Always trying to take what isn't yours  
Hiding it away in dusty drawers

Shake it, don't fake it  
Come right out and do your thing

Voiding, avoiding  
Can you dig the real swing

Leave me, believe me  
Relieve me  
Backing away every move on the sly.
