A100

Billy Corgan

Stay with me just a little
Lay with me just a little
Stay with me just a little moreYou are love
You are soul
You are real to meSome might say my love devours you whole
Some might say that life is my love
Fools like us remind me
Trust the way I feel surround you upSome might say my love is reaching you
Some might say that life is waiting aloneYou are love
You are soul
You are tears
You I knowI could love you, I could love you home
All I ask for is that I love you, that I love you more
I would say empty things
Have empty dreams that find meSome might say my love devours you whole
Some might say that life is my love
Fools like us remind me
Trust the ways I feel surround you upAnd I could love you, I could love you home
In ways I feel surround youYou are love
You are real
You are soul
You I feelStay with me just a little more
Stay with me just a little more
Stay with me just a little more
Stay with me just a little more'Cause fools like us remind me
Trust the ways I feel love, do I feel love?
