

# The Way I Feel

## Rancid

Pick me back up just to throw me back down  
Apologies too late when you're up against the wall  
Compassion heals while duplicity kills You say that I'm different, you say that I'm different  
The only thing different is the way I feel about you  
Na na na You moved up the ladder at a very rapid speed  
Oh we moved methodically and calmly  
When you got to the top you see enemies You say that I'm different, you say that I'm different  
The only thing different is the way I feel about you  
Na na na If I knew back then what I know now  
It would all turn out like this  
I'd sit back and I'd watch you squirm 'Cause you say I'm different, you say I'm different  
The only thing different is the way I feel about you  
Na na na Na na na
