Wild and Crazy Kids

The Kinison

Well I can't fill this space
I'm feeling out of place
It starts with us and ends up badI can't fill this space
I'm feeling out of place
It starts with us and ends upIt gets worse right here
Can't you read?
This town's a convenient store
You can buy whatever you want
But you can't find your literatureWell I can't fill this space
I'm feeling out of place
It starts with us and ends up badWell I can't fill this space
I'm feeling out of place
It starts with us and endsIt gets worse right here
Can't you read?
This town's a convenient store
You can buy whatever you want
But you can't get your literatureIt gets worse when you're not on my side
It gets worse baby working 9 to 5
It gets worse when you're not on my side
It gets worse baby baby working 9 to 5It gets worse right here
Can't you read?
This town's a convenient store
You can buy whatever you want
But you can't get your literatureIt gets worse right here
Can't you read?
This town's a convenient store
You can buy whatever you want
But you can't get your literatureOh I can't fill this space
I'm feeling out of place
It starts with us and ends up badI can't fill this space
I'm feeling out of place
It starts with us and ends up bad
