

# Call My Name

## Omd

I've seen a new sensation, I heard you call in pain  
But running around in circles won't make it right again  
The telephone keeps ringing, your head is in the sand  
The future is unfolding, but it's not what you had planned  
No matter what you do, there's no escape for you  
You say, we go too far, you say, I take my car  
So, it always ends the same and there's no one else to blame  
But I'd die, if you would call my name  
Caught between two evils, you should have stayed at home  
To wish upon and walk upon a planet of your own  
No matter what you do, there's no escape for you  
You say, we go too far, you say, I take my car  
So, it always ends the same, there's no one else to blame  
But I'd die, if you would call my name  
Oh, yes, I'd die, if you would call my name
