

# When Flying Feels Like Falling

## From First to Last

[x2]

It's days like these, that make me feel,  
like I want to bleed through my heart again.

It's days like these, that make me feel,  
like I might as well be on my own again.

I take back everything I said, about loving you.

Now that you've left me on the ground,

I can fly away to someone new.

Don't pretend like I don't know you're untrue.

I never meant to bring you

(down)

Nothing but good

(intentions)

I never meant to bring you

(down)[x2]

Take it back,

(Take it back)

This time.

(This time)

I'll just move on.

I'll just move on.[x3]

Take my heart,

(Take my heart)

Make it gray,

(Make it gray)

I'll never forget.

(I'll never forget)
