Keep in Mind

LoCash Cowboys

Keep in mind as you head out in that cold
Don't forget to take your coat, TV's sayin' snow
Keep in mind that old car of yours ain't no good on slippery roads
And I won't sleep a wink with you out there all aloneI know those dreams you're trying to chase
You want 'em now but they won't wait
Last thing you're thinking about is slowing it down
And the ones you left behindBut I'm always thinking of you
'Cause when somebody loves you
That's what they do
All of the timeSo keep in mind
I'll be waitin' on your call
In this little house you grew up in
When your world was safe and smallEase my mind
With the sound of your voice
Let me know no matter where you are
However far, your home is still your homeI know those dreams you're trying to chase
You want 'em now but they won't wait
Last thing you're thinking about is slowing it down
And the ones you left behindBut I'm always thinking of you
'Cause when somebody loves you
That's what they do
All of the timeSo keep in mind
The family and the friends you break
Who cried and watched you drive away
Asking God to please keep you in mindI know those dreams you're trying to chase
You want 'em now but they won't wait
Last thing you're thinking about is slowing it down
And the ones you left behindBut I'm always thinking of you
'Cause when somebody loves you
That's what they do
All of the timeSo keep in mind, there's angels all around you
Keep in mind, we're always thinking about you
Keep in mind, we know you're going to make it
But before you leave and spread your wings
I hope you take these things to keep in mind
Keep in mind
