Follow Your Heart

Souleye

Verse
Danger angers not danger
I'm no stranger with the Extreme
Exaggerated there's nothing left
Wait there's a whole bunch
Think of the sand in exotic lands
Full moon check the moon shine
Off of the ocean floor
In love with Canada truly the trinity
No amateur arms extended
Send them out no vengeance
I'm a comic a book
Beam me up it's hypnotic
Double Handed man the canvas
It's all night like Midas six am the tides out
Eight mile jog before the caffeine hits
Wake up celebration of life
Never retreat eggs crack Halloween
Now that's a knee slapper the irresistible
Make it simple when things seem difficult
Remove some syllables watch your fingers
Run across the water like a miracleHook
Follow your heart
And keep your head upVerse
As the wind forms the clouds
New paintings take shape
May the rough get smooth
And the smooth get rough
Everything will be ok as the sail boat sails away
And the dreams of our children manifest fully
Let your body stretch out activate
Toward acceptance interdependence
I pledge allegiance to giving and receiving
Who's the lucky winner on the price of desire
Earth wind and fire my thumb presses tightly
Up against my index and my middle
While my pinky and my ring finger close in
That's the mudra that I use
When I'm in self discovery mode ancient

Is the way that I flow mysteriously
As I travel through time space continuum
Convincing evidence is not needed
For me to life my life beyond survival
Arriving at the home of thriving
