Let It Go

Reefer

Intro:
(Cant take my eyes off of you.)
A firm grip, won't slip away,
Affirmed it, by how long you stayed.
Played dead, rigamortis grip led to faded blues with bad attitude.
Burned bridge, you burned it.
Built a bad reputation, you earned it. (you earned it.)
A firm grip, gone viewshed.Chorus:
Everybody knows your dirty little secret,
If any body crows,
We will reveal it those who dont,
Let it go.Refrain:
You tripped over the body
And you cant understand me, too busy running.
Lie down, lay low, and let it go.
(Cuz)Chorus:
Everybody knows your dirty little secret
If any body crows
We will reveal it those who dont.
Let it go.
