

The Sound Of Your Voice

38 Special

Knock down the doors and break through the walls
Tear out the phone run from it all
I'm here to tell ya, babe it's been one of these days
I get a feelin' when I'm feelin' like this My heart's a target you never miss
You got a way of puttin' everything in its place takin' your time
It's all that you're sayin' just how you say it
A serious game you start to playin' you never cease to amaze me It's your voice I hear drivin' me wild
Whispering in my ear
It's your voice I hear dangerous child
You're sayin' what I wanna hear If I had my choice I'd run for cover
But I think it'll be okay 'cause all I needed to hear
Was the sound of your voice
Curl your words up into the air run your poetry through my hair Call me that name you call me when there's no
one around
Take your time take all your precious time
It's all that ya sayin' just how you say it
Serious game you start to playin' you never fail to amaze It's your voice I hear drivin' me wild
Whispering in my ear
It's your voice I hear dangerous child
You're sayin' what I wanna hear Bye baby, bye bye
I can tell ya that I miss the sound of your voice already
Bye baby, bye bye
It doesn't matter where I go It's your voice I hear
If I had my choice I'd run for cover
But I think I'll be okay
I can't say I'm going crazy But you make a pretty good case
And you never fail to amaze
It's your voice I hear drivin' me wild
Whispering in my ear It's your voice I hear dangerous child
You're sayin' what I wanna hear
It's your voice I hear drivin' me wild
Whispering in my ear It's your voice I hear dangerous child
You're sayin' what I wanna hear
It's your voice, it's your voice
It's your voice
