

# Change of Heart

## Driver

Late at night you're still dancing inside my head  
Remembering all those things that I should have said  
I don't know what to do but I can't live without you  
Tears of blood I have cried don't you let our love die  
You, you're looking away, you're here but so far  
You need a change of heart  
Stop this anger you have or it will tear us apart  
You need a change of heart  
What will it take. I'm still willing to work it out  
We made mistakes, but we all need a change of heart  
I don't know what to do but I can't live without you  
Tears of blood I have cried, don't you let our love die  
You, you're looking away, you're here but so far  
You need a change of heart  
Stop this anger you have or it will tear us apart  
You need a change of heart  
Now you know wherever you go I'll be around  
I'll be there catching your tears before they fall  
You, you're looking away, you're here but so far  
You need a change of heart  
Stop this anger you have or it will tear us apart  
You need a change of heart
