Orchestra

The Ripe

The perception of your body is like harmony
I wanna track your moves like a single piece
Oh, I'm lovin' what I'm hearin'
Lovin' what I'm seein', lovin' what I'm feelin'
You, got me so dumb, got me so sprung
And I'm lovin' every minute
And I'm lovin' everything about ya
And babe, I can't roll without ya
And then she's callin' my name
I be makin' her sing like an orchestra, like an orchestra
And as we lay I make the music play
Sounding like an orchestra, like an orchestra, oh
I wanna lay you down just right and make this song complete
Get you wrapped up in my lyric sheet
My hearts pounding like a bass drum, boom
As you're blowin' on my trombone
I just want to conduct you
Make you do what I want to
So ask me to run through
When those beautiful sounds make up those jam beats
She be callin' my name
I be makin' her sang like an orchestra, like an orchestra
And as we lay let the music play
Soundin' like an orchestra, like an orchestra, oh
Let us come together like a cymbal crash
When I love you major when I lay you down like
Can you feel my need as I bang my drum?
The harder I hit the more the symphony comes, oh
She be callin' my name
I be makin' her sang like an orchestra, like an orchestra
And as we lay make the music play
Soundin' like an orchestra, like an orchestra
Like an orchestra
