

# Calling On You

[Stryper](#)

Inside of me there is a lonely place  
Sometimes I just don't know it's there  
But when I'm all alone  
That's when I have to face...The part of me that needs someone  
To be by my side that's when I call on...You, You make my life complete  
You give me all I need  
You help me through and through  
I'm calling on youI can't explain just what You do to me  
My love grows stronger everyday  
You give me love, You give me company  
And when I have to face the rain  
You bring sunshine into my lifeYou, You make my life complete  
You give me all I need  
You help me through and through  
I'm calling on you[Solo]You, You make my life complete  
You give me all I need  
You help me through and through  
I'm calling on you
