

Jesus Was an Alien

Tabitha's Secret

Elvis is alive at your local grocery store
If you believe that boy well sit down and I'll tell you more
Lee Harvey Oswald, well you know he acted alone
Charlie Manson only wanted to make his house a home
Jesus was an alien flyin through space
God was an astronaut who said boy I like your face so the story began
Girl I love you and the check is in the mail
Found religion inside myself I drained the blood the flesh will stand
So reach in your pocket and give us all you can
The only one that's going to heaven is gonna be the richer man
Jesus was an alien flyin through space
God was an astronaut who said boy I like your face so the story began
Jesus was an alien flyin through space
God was an astronaut who said boy I like your face so the story began
I see you shaking boy do you find it hard to believe
That the one you've been livin for would cut your wrist and watch you
bleed
You find out the truth is a lie and it makes you feel unwell
you say that judging the almighty dollar is all we have to save us from
hell
Jesus was an alien flyin through space
God was an astronaut who said boy I like your face so the story began
Jesus was an alien flyin through space
God was an astronaut who said boy I like your face so the story began
