

Money

[Doug Crawford](#)

Learned on road every towns got back roads, filled assholes
I'm steady on my grind trying to elevate my cash flow
I never got in the chase for flashy clothes
Or to impress women man i always had a gang of those
I can't lie I got high off the rush
With no idea Who I can trust
So i Go with my gut roll it on instinct
Even when everyone Betting against me
At my best when I'm against the wall
For years perusing music made no sense at all
Spending all my \$ Blamed it as an occupational hazard
If ur not doing what u love now of it really matters
Came a point I said fuck & chose music
I can always make it all again if I lose
It
Theres still more to Accomplish
By no means Done
Cuz Even if its Just 4 myself Im a gotta prove itIts all about the money, its all about the money its all about the
money money money money
