

Clockwork

Douglas Dare

In this box
A secret so closely kept
Two thousand years in the depths
Not to be opened yet To the skies
They looked for the reasons why
This oak in to be oh why
Cause answers aren't always right. Measure Time but it will move
Hold it close but it won't prove anything In their eyes
A memory they soon lose
Tied to them like a noose
Oh memories they cannot choose And ruled by hands
The point at the moments pass
Lived life behind the glass
Or break it to breathe at last Measure time but it will move
Hold it close but it won't prove anything
Noohoo Hold time dear
Hold time dear
Our times here
Our times here ooohaaaaa
Our (long) Measure time but it will move
Hold it close but it won't prove anything
Noohooo In this box
A secret so closely kept
Two thousand years more to look
As long as these clocks work
