Rock the World

Third World

Let's rock the world with music, give Jah creation this loveWhen I look around oh Jah the world is up side down
If tears could fill your eyes we'd be drowning
So many questions and not enough solutions
Let's bring some happiness to everyoneLet's rock the world with music, give Jah creation this love
Let's rock the world with music, give Jah creation this loveDon't let nuclear brutality sneak up on you and me, so don't
You bring no E.S.P. inna my-buggy yea, let's dance 'cause that's
Naturality and naturalist is you and me
We can make hatred an illusionSo let's rock the world with music, give Jah creation this love
Let's rock the world with music, give Jah creation this loveI know one day just like the morning sun
Jah music will be heard by everyone
We are moving in the positive
Rock away the negative, so here's my advice
Here's my advice, here's my advice to future everyoneLet's rock the world with music, give Jah creation this love
Let's rock the world with music, give Jah creation this love
You shoulda-see-me rock you, you shoulda-see-me rock you
You shoulda-see-me rock you and if you see me rock you
And if you see me rock you
