

# Rock the World

## Third World

Let's rock the world with music, give Jah creation this love  
When I look around oh Jah the world is up side down  
If tears could fill your eyes we'd be drowning  
So many questions and not enough solutions  
Let's bring some happiness to everyone  
Let's rock the world with music, give Jah creation this love  
Let's rock the world with music, give Jah creation this love  
Don't let nuclear brutality sneak up on you and me,  
so don't  
You bring no E.S.P. inna my-buggy yea, let's dance 'cause that's  
Naturality and naturalist is you and me  
We can make hatred an illusion  
So let's rock the world with music, give Jah creation this love  
Let's rock the world with music, give Jah creation this love  
I know one day just like the morning sun  
Jah music will be heard by everyone  
We are moving in the positive  
Rock away the negative, so here's my advice  
Here's my advice, here's my advice to future everyone  
Let's rock the world with music, give Jah creation this  
love  
Let's rock the world with music, give Jah creation this love  
You shoulda-see-me rock you, you shoulda-see-me rock you  
You shoulda-see-me rock you and if you see me rock you  
And if you see me rock you
