

# Colossal Youth

## Young Marble Giants

If you think the world is  
A machine with one cog  
And that cog is you,  
Or the things that you do  
Then you are not in this world  
The world is not you  
If you think the world  
Is a balloon in your head  
When it goes bang only  
You will be dead  
'cause you are not in this world  
The world is not you  
If you think the world lies  
At the top of your legs  
And you only live when you are in bed  
Then you are not in this world  
The world is your head  
If you think the world is  
A clutter of existence  
Falling through the air  
With minimal resistance  
You could be right, how would I know?  
Colossal youth is showing the way to go
