

# Shine on You

## Matisyahu

Oh in this life filled with so much strife  
I'm gonna love with all of my might  
Open my eyes and give me the sight  
Want all of your love now all of the time  
Give ya my soul now all of my mind  
Wish I could just hit rewind rewind Oh we must fight the war for survival we must win  
And we will rise again like the strongest lion  
Oh we must fight the war for survival we must win  
Conquer the demons cause we won't stop tryin'  
Oh my soul has been so low  
Make them clouds fade to blue  
So my love can shine on through  
Shine on you Circlin' ramp one night  
Lyin' on my back watchin' clouds in the sky  
Ace pass by and the angels cry  
Some of them might wanna wonder why  
Circlin' all them seven skies  
Wish I could just press rewind press rewind press rewind Oh we must fight the war for survival we must win  
And we will rise again like the strongest lion  
Oh we must fight the war for survival we must win  
Conquer the demons cause we won't stop tryin'  
Oh my soul has been so low  
Make them clouds fade to blue  
So my love can shine on through  
Shine on you Oh I could let you go oh oh I love  
Oh I got to follow on high tightrope Oh we must fight the war for survival we must win  
And we will rise again like the strongest lion  
Oh we must fight the war for survival we must win  
Conquer the demons cause we won't stop tryin'  
Oh my soul has been so low  
Make them clouds fade to blue  
So my love can shine on through  
Shine on you Shine on you  
Shine on you  
Shine on you Oh my soul  
Oh my soul  
Oh my soul  
Oh my soul  
Oh my soul
