Spaceship

Sean Lennon

I step into my spaceship
I'm on my way home
I hope that I will make itBut there's no way of knowing
The world is far behind me
I look into the sunI know it's all because of you
Help me find the way to get homeAnd now my eyes have opened
I watch the stars glow
The sky is like an oceanI'm floating alone
I know that I will make it
I look into your eyesI know it's all because of you
Help me find the way to get you home
