

# World Peace Is None of Your Business

[Morrissey](#)

World peace is none of your business  
You must not tamper with arrangements  
Work hard and sweetly pay your taxes  
Never asking what for  
Oh, you poor little fool oh, you fool World peace is none of your business  
Police will stun you with their stun guns  
Or they'll disable you with tasers  
That's what government's for  
Oh, you poor little fool oh, you fool World peace is none of your business  
So would you kindly keep your nose out  
The rich must profit and get richer  
And the poor must stay poor  
Oh, you poor little fool oh, you fool Each time you vote you support the process  
Each time you vote you support the process  
Each time you vote you support the process  
Brazil and Bahrain  
Oh, Egypt, Ukraine  
So many people in pain  
No more, you poor little fool  
No more, you fool
