

# ART (Ashbury Heights Mix)

## God Module

When our masterpiece is complete  
And the coroner's report is back in  
It will read, "The cause of death: art" Art  
It will read, "The cause of death: art" Art Your death scene projected on the ceiling  
What's in your veins will express the way I'm feeling  
A melting image of the holes in your head  
Bleeding from the walls that we painted red in the dark Only when you're hurting  
Will you know what you are  
Only if we end it together, forever  
Can you take it that far? All the fucked up things I'm feeling  
The suffering I see when I'm dreaming  
Of worlds that can't exist (why resist?)  
I only wanted you to believe  
To feel my hate without the emotion  
Darker than the black of the ocean  
I'm breaking, I'm falling apart  
All from the sake of my..... Art Your rape scenes been rewritten again  
I'll make a new mask made of stranger skin  
Scratching out the parts that aren't what they seem  
It takes a lot of patience to teach you how to scream Only when you're hurting  
Will you know what you are  
Only if we do this together, forever  
Can you take it that far All the fucked up things I'm feeling  
The suffering I see when I'm dreaming  
Of worlds that can't exist (why resist?)  
I only wanted you to believe  
To feel my hate without the emotion  
Darker than the black of the ocean  
I'm breaking and falling apart  
All for the sake of my ART When our masterpiece is complete  
And the coroner's report is back in  
It will read, "The cause of death: art"  
It will read, "The cause of death: art"
